### **Pet's Health and Disposition**

Texas Panhandle Pet Savers, Inc cannot guarantee the health or disposition of any foster animal. We do not have past records for these animals and there may be some risk associated with taking in foster animals. Family pets should be current on all shots and foster pets should be kept isolated from your family pets if you suspect they may have an illness. TPPS is not liable for any illness or expenses you may incur from your own pet contracting an illness from a foster animal.

### **Transfer of Animals**

Animals cannot be transferred to the custody of any other person without prior consent and permission of Texas Panhandle Pet Savers, Inc.

### **Return of Animals**

All the pets in the Texas Panhandle Pet Savers foster program are the property of TPPS and must be returned within 24 hours of request.

### **Compliance with Law**

For purposes of leash and restraint laws, the City of Amarillo recognizes the foster as being responsible for the animal. City ordinance requires that animals must be properly restrained and confined. In order to comply with local laws and ensure the safety of the animal, it is crucial for animals to be in a home or fenced yard, and on a leash when outside the foster's premises. Failure by a foster to properly restrain or confine an animal could result in the City issuing a citation to the foster. TPPS is not responsible for any citations issued due to the foster's failure to comply with the law. A foster's failure to comply with law or receipt of a citation could result in TPPS requesting return of the animal.
